

The Book of Mormon for Littles

A comprehensive board book of the most popular Book of Mormon stories available in both English and Spanish with modern illustrations.

INTRODUCTION

When my wife and I had our first child a year and a half ago, we were frustrated by the market of Book of Mormon children’s books:

- They didn’t cover all the major stories.
- They were either too detailed or not detailed enough—we wanted something in between that could work with toddlers but also a little older.
- Most were only paperback/hardcover. Board books are a must for little kids.
- Lastly, and what ultimately pushed us over the edge, is that we’re teaching our son Spanish, and no children’s “Libro de Mormón” existed!

It took us a year and a half and was honestly harder than we thought, but we are extremely pleased with the final result.

38 pages. Covers all major stories. 100% original artwork (no AI) by the very talented Emma Jeske. Durable board book. Comes in English or Spanish.
